

Six months of war on Gaza

Stop Genocide Now! Solidarity with Palestinians!

32000 This is the number of Palestinians Israel has slaughtered in the last six months. 75 percent of them are children and women. Precious lives are being snuffed out by Israel's war crimes.

Recently, Israel razed Al-Shifa Hospital, the largest medical center in Gaza, to the ground in a 13-day assault. More than 400 medical staff and patients were massacred, and survivors are testifying about atrocities done by IDF, where Israeli bulldozers buried Palestinian patients and refugees alive alongside the bodies of those executed.

Starvation caused by Israel's blockade and attacks has pushed the entire population of Gaza into a food crisis. "Israel is destroying Gaza's food system and using food as a weapon against the Palestinian people"(UN Special Rapporteur on the right to food). Palestinians are jumping into

the sea to receive air-dropped aid and drowning. Israel has even shot and killed residents trying to receive flour.

The war has displaced 85 percent of Gaza's residents, destroyed more than 60 percent of buildings, and damaged or destroyed two-thirds of schools.

On March 25, the UN Security Council adopted a resolution calling for ceasefire, but Israel has not stopped its attacks. Israel is even blatantly ignoring the order of the International Court of Justice to prevent genocide issued in January of this year.

accomplices to genocide

Israel has been ethnically cleansing and massacring Palestinians since 1948, when it stole the land.

Israel has resorted to unscrupulous lies to justify its massacres. Israel spread rumors that Hamas beheaded infants and children, even going as far as the White House, only to have them proven to be fake news. Israel has murdered 103 Palestinian journalists in Gaza in the past six months. The Committee to Protect Journalists (CPJ) president said that “this war, which is unprecedented for the rate in which journalists are being killed, is like no other we have seen.”

The US and Western governments have supported Israel's barbarism and atrocities. The US has never voted in favor of a ceasefire resolution, and recently secretly authorized billions of dollars in arms aid.

Justice and Freedom for Palestine

But the past six months have also been a time of spreading waves of freedom and justice.

Palestinians, who have faced Israeli occupation for the past 76 years, are refusing to kneel in the face of continued barbarism and genocide.

The Palestinian solidarity movement is unfolding on an unprecedented scale around the world. Palestinian solidarity demonstrations have recently taken place across Middle Eastern countries, and in Jordan, thousands of people are taking to the streets every day despite

government repression. Massive Palestinian solidarity rallies have also taken place in the United States and Europe, with 200,000 people attending last weekend in London alone.

Even in South Korea, Koreans, Palestinians, Arabs, and other nationalities have been marching in the city center every Saturday in solidarity with Palestinians.

To stop the evil deeds of the barbaric occupier Israel and its accomplices, the voices of protest against them and the cries for justice in solidarity with the Palestinians must be heard louder and stronger.

Marking 6 months of ongoing genocide, please join us for the 4.6 Day of Action. We urge you to be part of the global conscience.
